

Placements at Amrita have always been excellent. Be it Engineering or Arts and Science, students who are eligible and opt for placements have more than one job offer, on an average. Exercising their dream option, some of them have upto three job offers.

### **Engineering**

Some of the key aspects that are taken into account by the placement team are as follows:

- Ensuring summer and winter internships and final placements of students from all branches of Amrita Schools of Engineering as well as Arts and Sciences, Communication, Social Work and Biotechnology, in reputed organisations.
- Improving the quality of placements in terms of job opportunities, companies of relevance that visit the campus and the highest and average salaries.

Enhancing industry-academia association through frequent visits, interactions with the top management and facilitation of Faculty Development Programmes, Student Visits, Industrial Training, and Project Guidance under Corporate Action Plan.

- Updating / reviewing the placement policy in terms of number of opportunities, career options, etc., from time to time (The latest Placement Policy).
- Utilising the vast network of alumni, the corporate relations departments of sister institutions / other campuses and eminent personalities who are devotees of AMMA, for the benefit of students.
- Obtaining feedback from employers on the performance of students to enhance the quality of students.
- Obtaining feedback from employers on the performance of alumni and any other information that is relevant for upgrading the course content / syllabus.
- Assisting in improving the employability of the students by organising special training with the help of experts from industry.

- Building rapport with the top management of companies by organising visits of CEOs, COOs, Presidents, VPs and GMs to the Amrita Vishwa Vidyapeetham.

### **Highlights**
